Proving the Pythagorean Theorem Name: _____ Per: _____

Learning Target: I can show a triangle is a right triangle using the Pythagorean Theorem. I can explain the theorem and how it works.

Answer the following questions in complete sentences.

1. What kind of shape does the Pythagorean Theorem work for?

2. What is the Pythagorean Theorem?

Short answer questions for deeper understanding.

4. Explain how to use the Pythagorean Theorem to find the hypotenuse.

5. Explain how to use the Pythagorean Theorem to find a leg.

6. How can you determine if a triangle is a right triangle?

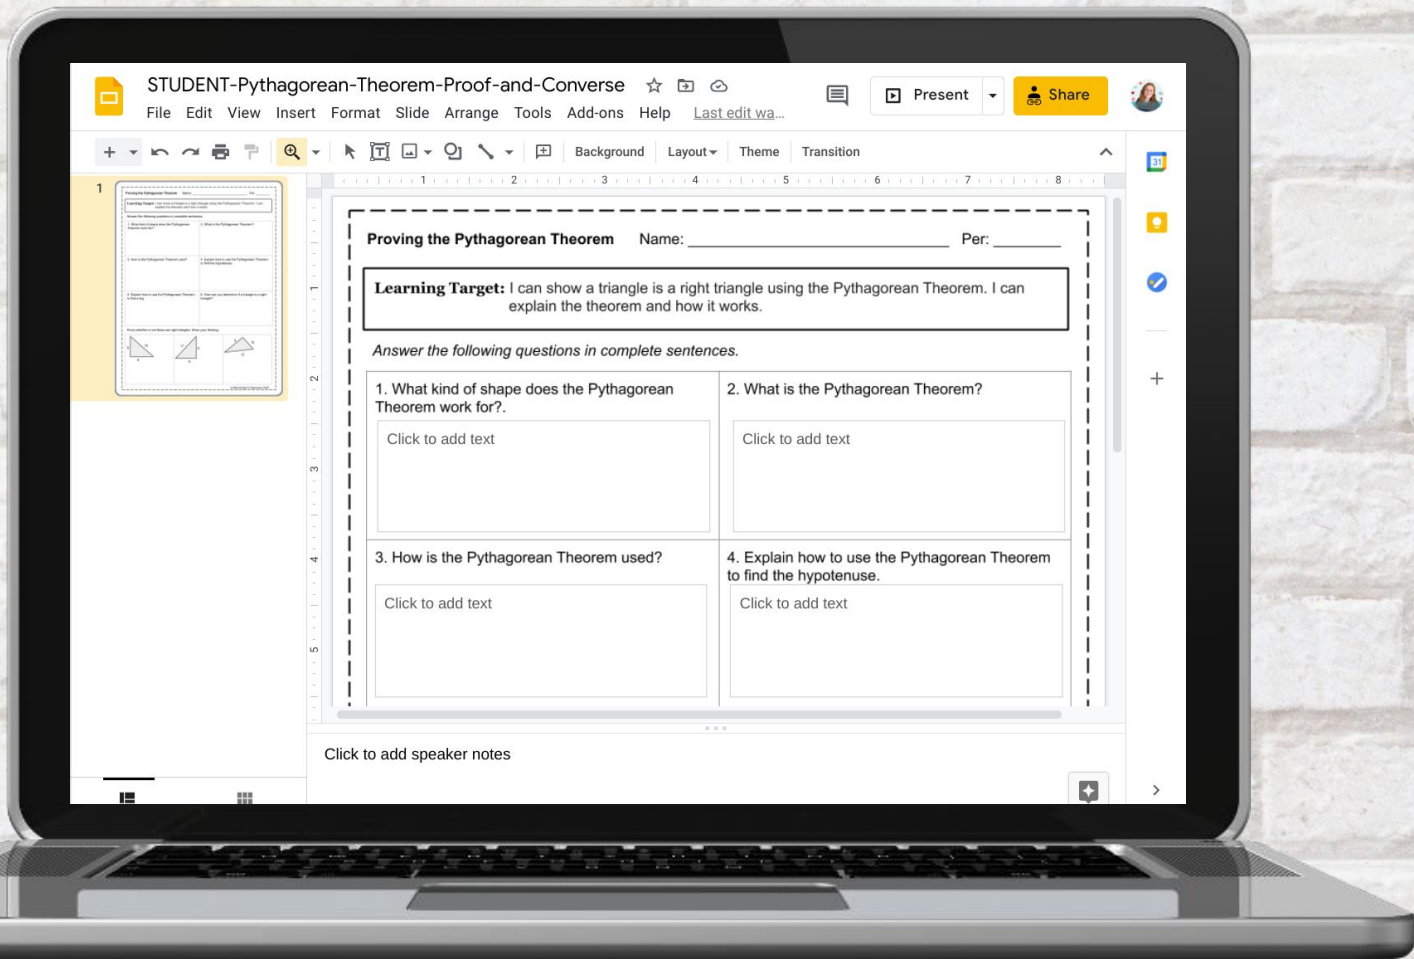

Prove whether or not these are right triangles. Show your thinking.

Proof problems to meet CCSS 8.G.6
